Panel A of Fig. 3 on page 140 is incorrect. The figure should depict a motorcyclist, a young girl, a motorcycle, a fairground carousel, a glass containing beer, and a jar of sweets. The latter two objects, which were essential to the design of Experiment 2, were missing from the published figure (which in fact related to an earlier version of the reported study). The correct version of Fig. 3A is as follows:

Fig. 3.

The authors apologize for this error and for any confusion that this may have caused.
